THE VILLA

FACING THE SUNSET

Villa Cascade sits on its own private hillside plot on Millionaire's Mile in Kamala, with nothing in front of it but the open Andaman Sea. Every evening the sun sets straight ahead of the villa, and the whole house turns toward it.

Completed in 2022 and designed by an architect, the villa layers down the hillside in stone, teak and glass. Gardens, water and light run through every level. It is a private estate, not part of a resort, and for the length of your stay it belongs to your group alone, with a chef and villa team on hand from breakfast to the last drink.

SUNSETS FROM EVERY ROOM

Every suite, terrace and the 28 m infinity pool looks straight into the evening sun over the open sea.
